7. Click on Install when the pop-up window appears to start downloading the installer file

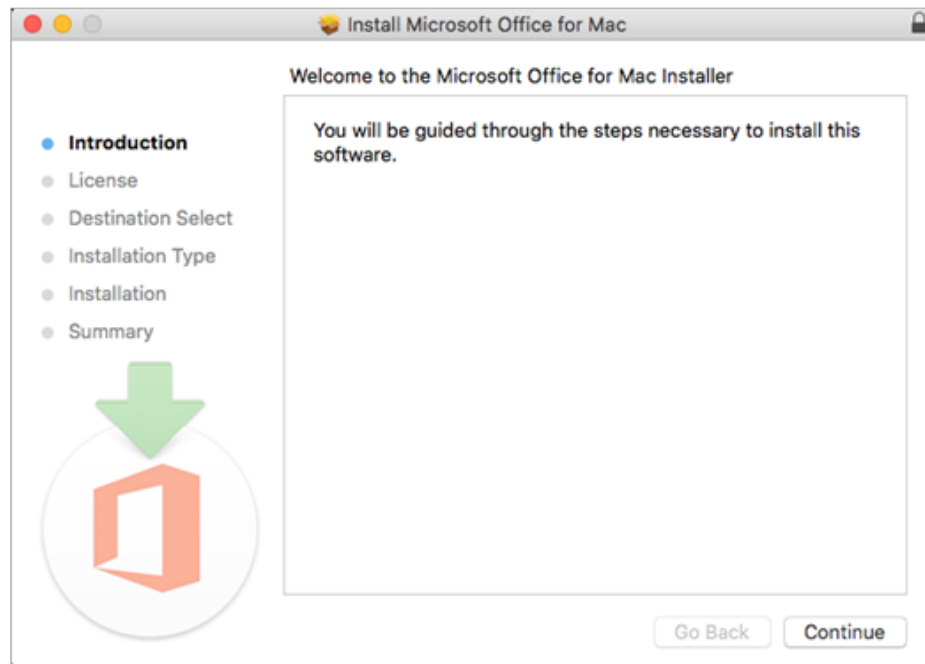

8. Once the download has completed, open **Finder**, go to **Downloads**, and double-click **Microsoft Office installer.pkg** file (the name might vary slightly)

**Tip:** If you see an error that says the **Microsoft Office installer.pkg** can't be opened because it is from an unidentified developer, wait 10 seconds and move the downloaded file to your desktop. Hold **Control** + click the file to launch the installer

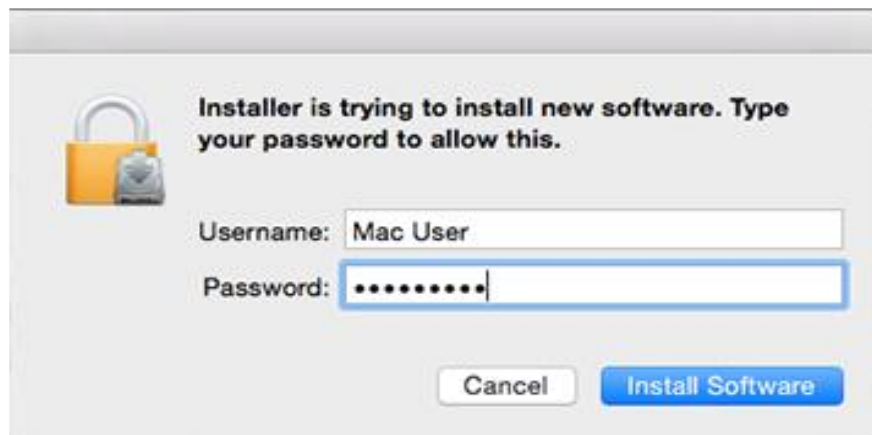

9. On the first installation screen, select **Continue** to begin the installation process

10. Review the software license agreement, and then click **Continue**
11. Select **Agree** to agree to the terms of the software license agreement
12. Choose how you want to install Office and click **Continue**
13. Review the disk space requirements or change your install location, and then click **Install**

**Note:** If you want to only install specific Office apps and not the entire suite, click the **Customize** button and uncheck the programs you do not wish to install

14. If prompted, enter your Mac login password and then click **Install Software** (This is the password that you use to log in to your Mac)

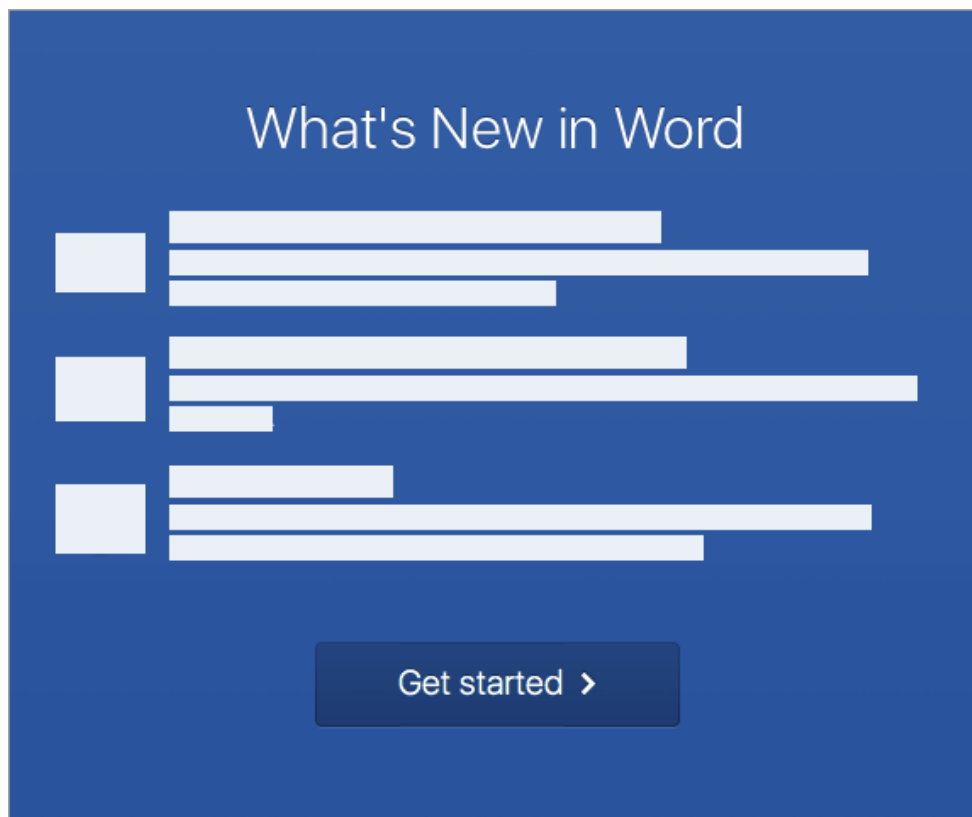

15. Click the Launchpad icon in the Dock to display all of your apps

16. Click the **Microsoft Word** icon in the Launchpad

17. The **What's New** window opens automatically when you launch Word. Click **Get Started** to start the activation process

### How do I pin the Office app icons to the dock?

1. Go to **Finder > Applications** and open the Office app you wish to pin to your dock
2. In the dock, **Control** + click or right-click the app icon and choose **Options > Keep in Dock**
